

**[DRAFT] Data Sheet E – Results of Internal Review Committee**

Date of Review/Recommendation: April 16, 2009

Water Body Under Evaluation:

Water Body ID #: 3362  
Name: Tributary to Boeuf Creek (Class C)  
Length of Segment: 1.3 miles  
County (ies): Gasconade

Use Attainability Analysis (UAA) Study:

UAA ID #: 0875  
Submitter: MEC Water Resources  
Date(s) Conducted: April 23, 2008  
Date Received: May 29, 2008  
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.  
☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.  
☐ 3-Non-Remedial, Human Caused Condition.  
☐ 4-Hydrologic Modifications.  
☐ 5-Natural Physical Features.  
☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in April 2008 and no evidence of WBCR was observed. Evidence of secondary contact recreation (ATV tracks) was observed. No interviews were conducted.

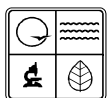

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream did not meet the maximum or median depth criteria in 2008, however the maximum depth criterion was met during a 2005 UAA. Because the stream has met the maximum depth criterion, the committee recommends that the WBCR use be retained. Due to evidence of secondary contact recreation (SCR), the committee recommends that the SCR use be assigned.

**Committee Recommendation:**

☐ Add Use ☒ Retain Use ☐ Remove Use  
☐ Modify Use ☐ Inconclusive
